

My Virtual Safety Trainer™

An immersive training platform designed to support Total Worker Safety™

VR Simulations

Designed for ILT & vILT

Try MVST for FREE!

40 VR simulations designed to supplement your ILT & vILT training

Developed for Construction and General Industry to onboard employees faster & safer

Designed to educate and empower learners to advocate for their personal safety and wellbeing

Supporting Meta Quest VR headsets

“As workplaces continue to grow more complex, gaps in traditional training methods are emerging. The use of gamification and VR allow workers to gain competency without exposure to hazards and risk. I highly recommend MVST as a part of any organization’s comprehensive safety and health program.”

James A. Junkin | CSP, MSP, SMS, CSHO

VR Simulations for Construction and General Industry

Caught-In and Between: Awareness

Confined Space: PRCS Awareness

Confined Space: PRCS Types & Rescue

EAP and Medical Services

Earthmoving Equipment Awareness

Electrical: Arc Flash, Fire, Explosion

Electrical: Burns, Electrocution, Shock

Electrical: Electrocution Awareness

Electrical: GFCI & AEGCP Awareness

Emergency Action Plan

Emergency Planning: Exits & Egress

Fall Protection: Awareness

Fall Protection: Donning

Fall Protection: Inspection

Fire Extinguisher Inspection

Fire Extinguisher Use

Fire Prevention Awareness

Fire Protection Awareness

Forklift: Key Off Inspection

Forklift: Key On Inspection

Hazardous Communication

Ladder Inspection

Ladder Use

Lockout/Tagout (LOTO)

Machine Guarding

Occupational Hearing Conservation

PPE Awareness

PPE Body, Hands, & Feet

PPE Eyes, Face, & Head

PPE Hazardous Environments

PPE Respiratory Protection

Safety Overview: Construction

Safety Overview: General Industry

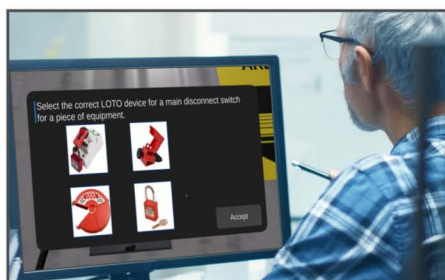

Scaffolding Awareness

Stuck-By Awareness

Trenching Awareness

Walking & Working Surfaces

Welding & Hot Work

Compliant to Federal OSHA Standards

Courseware developed and approved by OSHA-certified instructors with an emphasis on critical safety events that are relevant to your industry.

VR Simulations Increase Engagement

Virtual Reality training allows learners to have fun self-exploring and interacting with realistic environments.

Supports ILT and vILT Instruction

All courses and simulations are customizable, SCORM compliant, and can be accessed for self-paced learning through our LMS, or integrated into your LMS.
